

# MQ750+

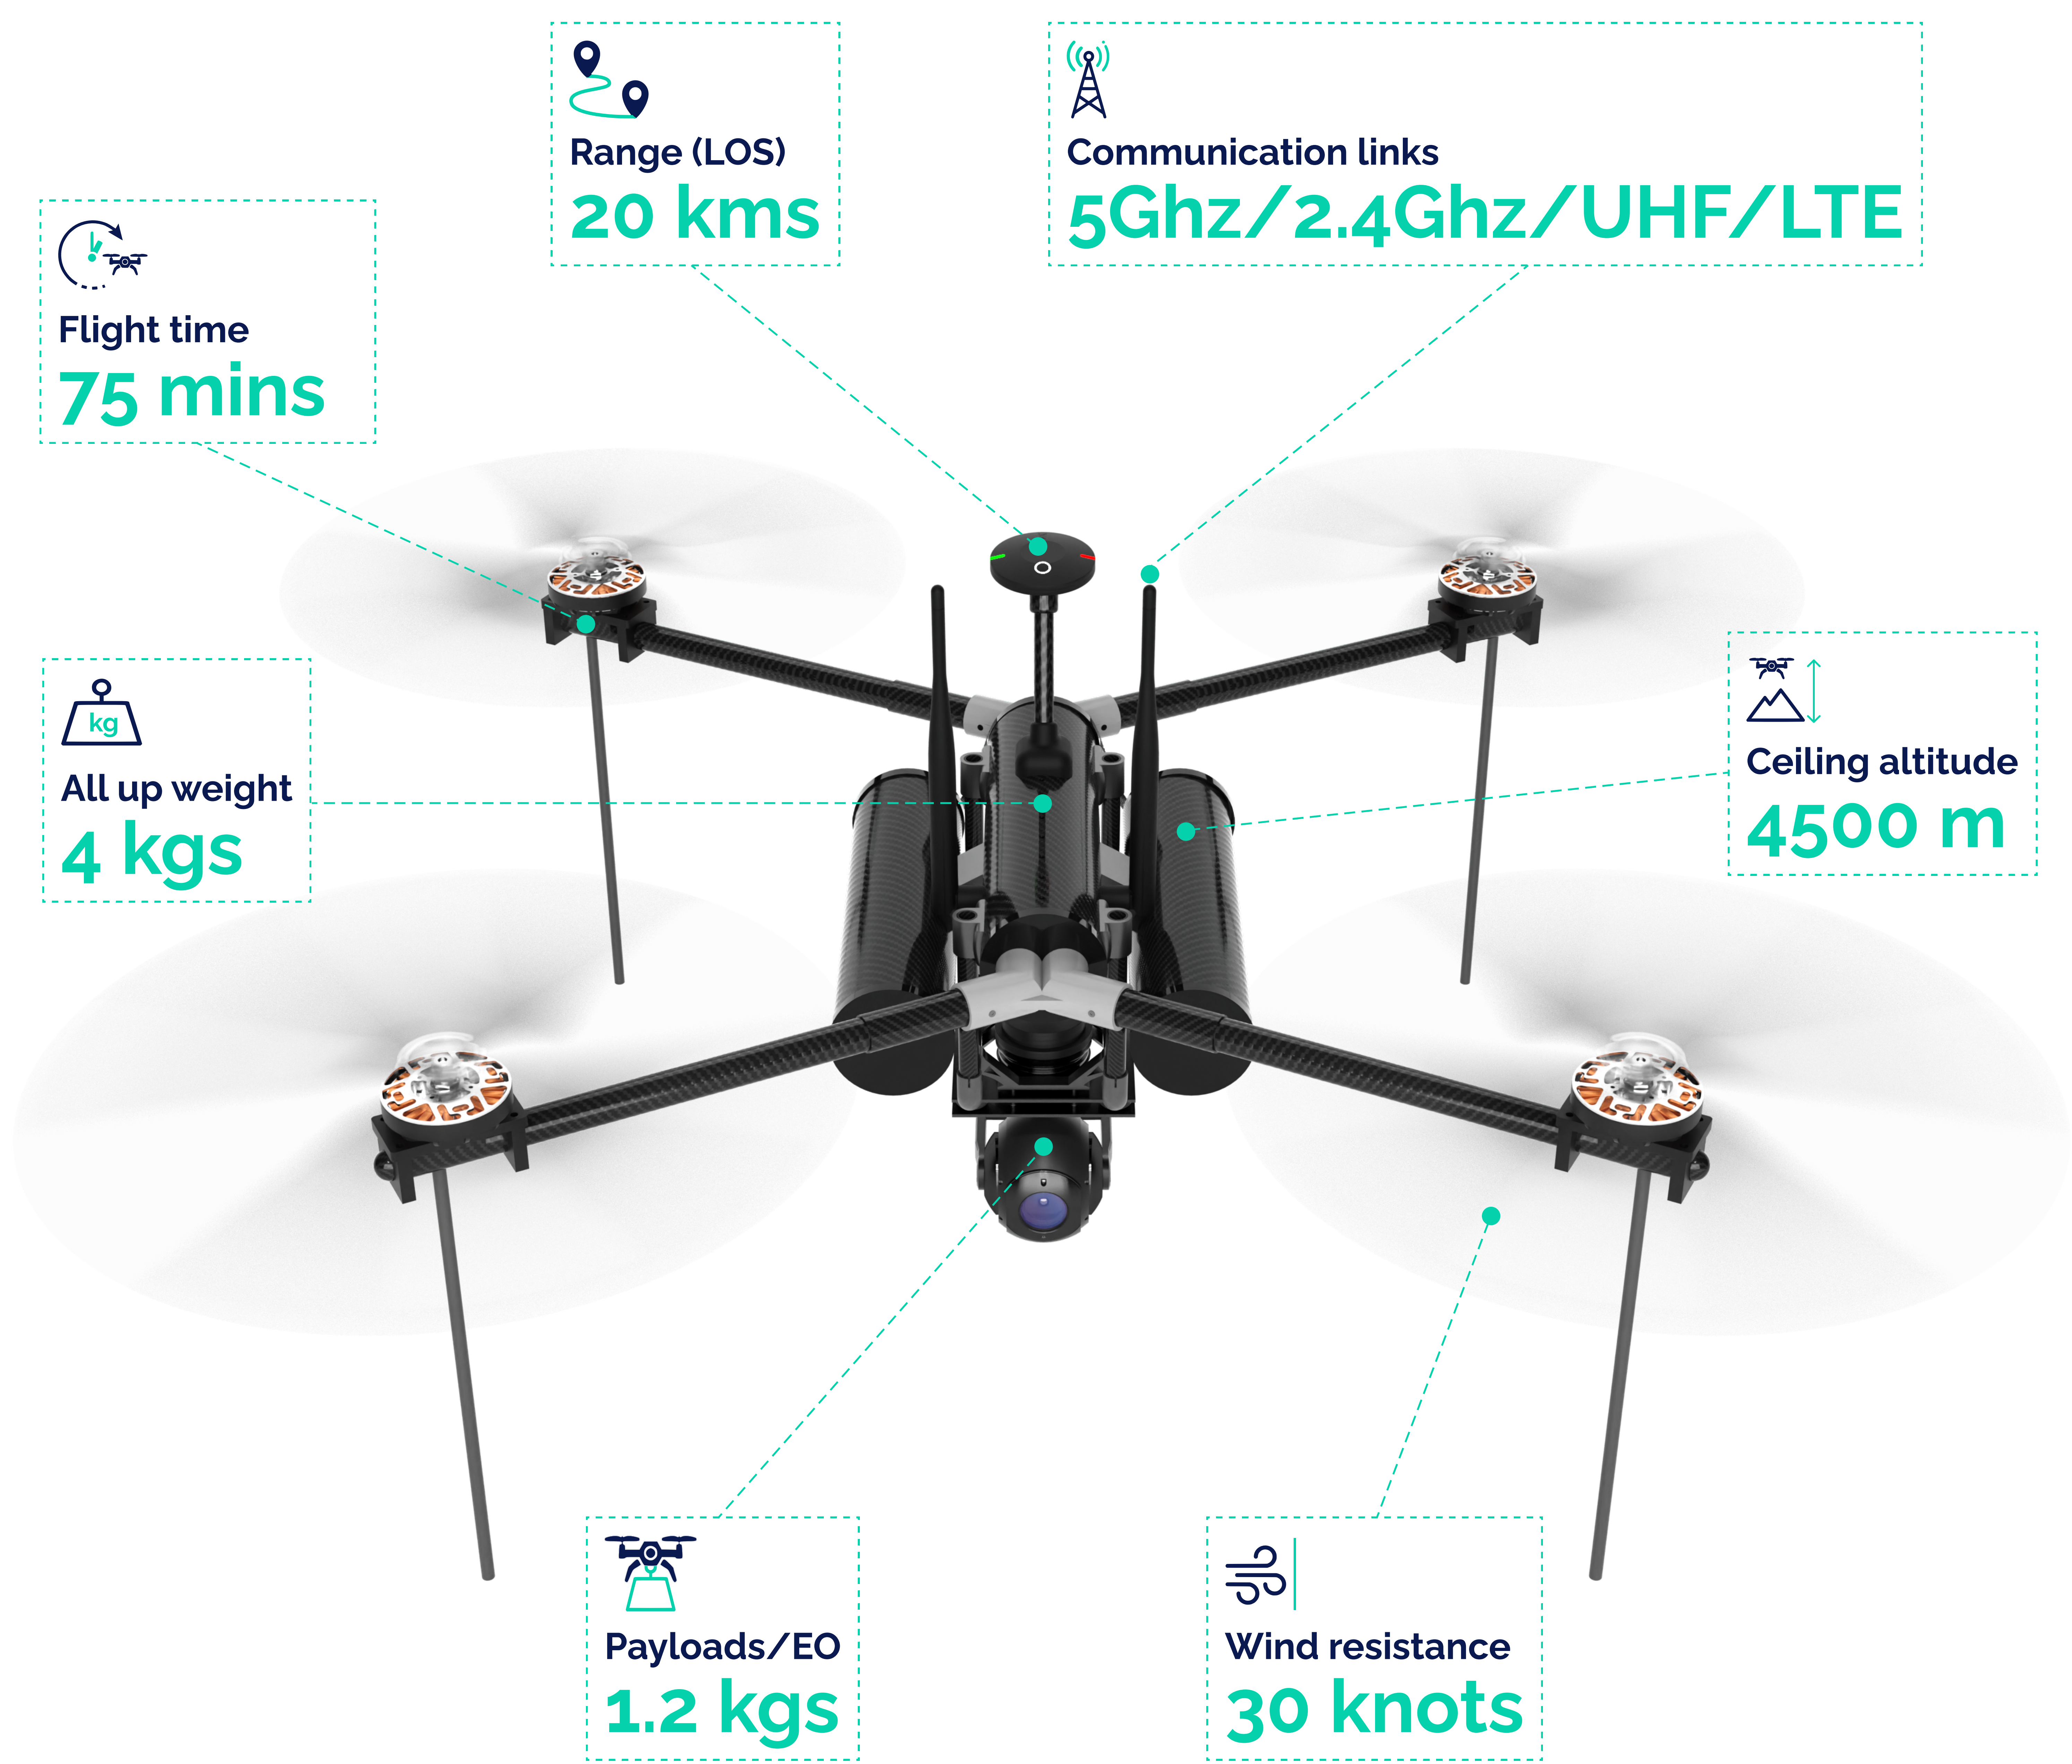

ROBUST | RELIABLE | RUGGED

## Advanced Aerial System

75 mins Flight Time  
20 Kms LOS Range  
1.2 Kgs Payload

MQ750+ is built tough, specifically to deliver the highest standards of performance achievable by a quadrotor deployed in critical operations. Deriving an imposing set of numbers from its innovative hybrid-composite monocoque air-frame, the MQ750+ doesn't compromise on ruggedness, durability and airworthiness. Driven by Rodella Labs' in-house autopilot system, it exhibits utmost stability in the extremest of operating conditions. Quick & easy deployment, paired with swappable payloads enables a versatile use, even at night.

Quick Deployment

Tool-less Assembly

Swappable Battery

Hot Swappable Payloads
